A BAD DAY FOR THE DEFENSE Charles C. Stouffer, a Clerk of the Pension Bureau, Gives Damaging Testimony.

The bottom was virtually knocked out of the defense in the case of the United States against George H. Boston, who is charged with violating the pension laws and also with forgery, this morning, when Asistant District Attorney Shillington called Charles C. Stouffer to testify in rebuttal. The witness is a clerk in the Pension Bureau and was present when Boston visited the office on November 3 for the purpose of ascernaining the address of another pensioner. During the course of a conversation which ensued Stouffer stated that "he, Boston, was being made a tool of in the prosecution, but that there are eithers besides who are equally as guilty." He also said he could tell the pension authorities things they knew When the trial was resumed this mora

ing several witnesses were called to tea-tify to the character of the defendant. The arguments were begun late this

CLOSING ITS DOORS TO QUIT BUSINESS

The Bank of Bornellsville, N. Gives Notice of Going Into Voluntery Liquidation.

Hernellsville, N. Y., Nov. 2s.-Tae Bank of Hornellsville, organized under the State banking laws in 1876, closed its doors today. The following notice was posted at the front entrance: "Closed; this bank has gone into voluntary liquidation by proceedings in the sup emcourt. Every creditor and depositor will be paid in full dollar for dollar. W. E. Pittinger, temporary is ofiver."

The closing of the bank has been ex-

pected for a long time as the bank was doing largely a discount collection busi-ness. The liabilities and mesets will not be made public for a day or two.

THE PORTO RICAN FOOR NEED MORE NOURISHMENT

Dr. Amadeo Says the People Are Degenerating for Want of

Proper Diet.
San Jann. Nov. 28.—Dr. Amadeo. Porto Rican who has passed much of his life in the United States, recently made m study of the foods of the poorer class es of life countrymen, and has embodied the results of his labors in an open let ter to Major Gen. Brooke, in the course of his letter Dr. Annales ways:

"Five years ago upon my return from the United States, I began to make cer-tain comparisons between the poor of Porto Rico and the poorer classes among the Americans. I noted a physical inte-riority among the Porto Ricans. The blance for this should be laid at Spain's door, for she, by reason of excessive duties on the necessaries of life,

ing proper nonresiment.

"I am a country physician, and when
my patients come to me for relief from
their many infirmities, "I am obliged to
say to them, "You do not need drugs and say to them, You do not need drugs and medicines, but you do need meat and fish-and murishing food. These are very im-portant facts to us, and we sincerely hope, as a source of possible relief, that General Brooke will do nil in his power to secure the admission into this land, free of all customs duties, of salled fish and means from the United States, and of rice and flour.

"I believe the regeneration of this island should begin by restoring the health of its people. Surely it would be a pity if the inhabitants of a part of the rich American Union should be without proper nourishment.

"A majority of the Porto Ricans are of Exception extraction. They cannot support life in roofless buts. We should make it possible for them to obtain chelter and homes. This could be done by permitting the entrance, free from all restrictions and duties, of the component parts of simple houses, such as boards, joists, from proofing and nalls.

"We cannot look for healthy bodies in country where excessive tariffs would continue to prevent the poorer clarses from eating meat and bread, and to com-

LOCKJAW PATIENT CURED BY THE USE OF ANTITOXIN

in Time. New York, Nov. 28 -- Of three cases of looklaw occurring in and near this city, the Pasteur Institute doctors claim to have cured two. One of the cases was

the one at Passaic, N. J., in which antitoxin was injected into the patient's brain and he recovered. The other case of recovery occurred in Brooklyn. Patrick Wakeley ten days ago, while

chopping wood, accidentally lopped off the top of the index finger of his left hand Last Tuesday he felt a numbress about the neck and taws, and summoned Dr. I L. Johnson, of Corona, who at once pro-nounced the case one of lockjaw. On Thursday Dr. Johnson called in Fred Albert C. Coombs and Dr. Deren-

bard. That evening it was decided to in-ject lockiaw antitoxin into the patient's brain, and the operation was performed. The patient had been for forty-sight hours in convulsions, but almost im tient showed signs of improvement. The convulsions stopped at once. But the old man had lost all his strength in battling the disease during the preceding two days, and at noon on Friday he died. Speaking of the case last night, Dr. Gib-

ier, of the Pasteur Institute, said: "I believe Wakely could have been saytreat him. And yet the injections greatly

There was good buying in London today apparently on the situation in Paris. The New York market opened high in sym-pathy with this because there is foot of snow on the ground in New Y as and winter weather may make business boom. Prices declined from the high opening in almost all stocks within the first bour. It seemed likely that the opening figures had been put up so that any who might wish to get into the market this morning would have to do so at a higher level. This view of the situation carries with it the probability Later in the day there were some exceptions to the early buoyancy. Brooklyn that there will be a recession from the Hapid Transit sold off 1 1-2 per cent on the engineers' report on the overloading of the Brooklyn bridge.

Sugar broke over a point from the opening. Tobacco went down nearly 2 per cent. The authracite coalers were materially higher on talk of a new combination and of the effect of coal weather on.

stocks have not had the advance that
the northern stocks have winnessed seems
to make predictions of even further advances well worth considering. Louisville's statement for the third week of

Brooklyn Rapid Transit was weak, probably on the stories that the bridge is being overworked.

The Union Pacific stocks are strong There was considerable bull gossip circulated on the Street this morning regarding this road, comparing it favorably with Atchison and Northern Pacific, and it is to be supposed that this gave trading in the stocks a fillip. The advance in Union Pacific has not been commensurate with that in the other roads.

in this column heretofore there is a bet-

ter feeling among the roads. There is continued talk of better prices for coal, which the big snow storm all over the East seems to warrant. St. Louis and San Francisco looks very well for further advances. The second preferred is especially attractive. The earnings of the road have been I creasing but more than this is the bright outlook for the future. More than any other road

The Federal Steel issues were strong today. The friends of this company predict a rise of four or five points in both the common and preferred within the next few weeks. This seems not a wild sup-position in view of the dividend prospects of the stocks. There is apparently no doubt that the preferred will pay 6 per cent regularly. The common has a good prospect of receiving 4 per cent from the beginning.

The Baltimore and Ohio securities con-tinue to be among the best liked in the list. There is excellent buying every day in them, and despite the good advance made during the last two weeks the gen-eral idea seems to be that a higher level yet is to be reached.
